Aerospace: The equipment and services supplier DAHER win their first contract with EMBRAER for the industrialisation and manufacture of composite structural sub-assemblies

EMBRAER, the world's 3rd largest aircraft manufacturer produce a whole range of regional and business aircraft. To accelerate their increased production rates, EMBRAER have decided to outsource part of the manufacturing of composite structural assemblies.

Thanks to its international deployment and a period of auditing, DAHER has just signed an initial contract with EMBRAER to manufacture sub-assemblies made of composite materials for the 'ERJ 170-190' and 'PHENOM 100' programmes.

These renewable 5 year contracts to be commenced in May 2008, with an annual throughput of approximately 200 aircraft per programme, involve both the industrialization and manufacturing.

Moreover, EMBRAER have confirmed their interest and established their involvement in the ADVITAC project (**A**dvanced **I**ntegrated **T**ail **C**one), presented by DAHER as the project manager, to the FP7 for the design and development of a fully-fitted tail cone made of composite materials.

Already well established with numerous aircraft manufacturers like AIRBUS, ATR, DASSAULT, BOMBARDIER, etc., DAHER is expanding its customer-base with EMBRAER and also consolidating its approach strategy and development within the American market.

For further information on DAHER – www.daher.com

DAHER is a European integrated equipment and services supplier, dedicated to Aerospace and other manufacturing industries.

In addition to Aerospace, DAHER specializes in three other sectors: Nuclear, Defence and Automotive. DAHER is developing in three fields of expertise: manufacturing, services and transport, which enable it to offer a comprehensive package.

Founded in 1863, DAHER is an exclusively family-run, independent international group, with more than 5,000 employees and 12 international installations (4 in Western Europe, 3 in Eastern Europe, 2 in North America, 2 in Africa and 1 in Australia). DAHER has doubled in size over four years to reach an annual turnover of 536 million euros in 2007.
