The new DAHER-SOCATA division presents its "manufacturing and services" offer.

Paris, April 14, 2009 – Following the arrival of SOCATA in January 2009, DAHER has combined its aerospace activities within the DAHER-SOCATA division. As a result, the group has attained a new scale, to become a key European player in the aerospace sector.

DAHER-SOCATA is an aircraft manufacturer and a tier-1 supplier of equipment and services to the aerospace industry.

DAHER-SOCATA's united know-how and expertise enables it to offer specific, targeted solutions for each market segment worldwide.

- **For commercial and military aircraft**, DAHER-SOCATA produces aerostructures and systems. The group provides high added-value services such as assembly and integration on aircraft, as well as diverse logistics and transport services.
- **For regional and business aircraft and helicopters**, DAHER-SOCATA produces fitted sections and airframes. It also handles global supply-chain management, as well as pre-FAL testing for sections and airframes before delivery and services for integration on aircraft.
- For aircraft in the under 8.6-tonne category, DAHER-SOCATA produces aircraft with options dedicated to the civil (business aircraft) and military (multi-role aircraft) markets. The division manages the complete final assembly line (FAL), aircraft support and maintenance as well as rebuild and reconditioning.
