DAHER to consolidate its logistics activities in the United Kingdom in the Aerospace and Defence sectors

The equipment manufacturer will take part in the DSEi* Exhibition in London (11-14 September, 2007)

European equipment manufacturer and service provider, DAHER has just opened a new, 2,000 sq. metre Aerospace and Defence logistics platform in Bristol, England, and is also developing its logistics activities for ROLLS-ROYCE in Scotland.

DAHER, specialist in global solutions that include high-tech industrial manufacturing and added-value services, is now strengthening its presence in England, where ROLLS-ROYCE and the UK Ministry of Defence are among its main customers.

DAHER has just opened a new 2,000 sq. metre logistics platform in the Bristol area, in the heartland of the British Aerospace industry. In creating this new platform, specifically dedicated to local Aerospace and Defence partners, DAHER confirms its commitment to working in partnership with its customers to help them develop their activities in state-of-the-art technologies.

This new platform means that DAHER can offer its customers a wide range of services, including **packaging, tool storage, supply management and transport covering both spare parts and ground support equipment.**

DAHER has also started new on-site logistics activities in Glasgow, Scotland, at ROLLS-ROYCE (parts inventory management).

These latest investments in the Aerospace and Defence sectors enable DAHER to consolidate its presence in the United Kingdom and to confirm its international development strategy.

DAHER will demonstrate its know-how in terms of design and production of containers, shelters and ground support equipment **at the Defence Systems & Equipment International Exhibition (DSEi)**. Its service offer, from warehousing to optimizing the supply chain, will also be presented.

By deploying its dual industrial and service culture throughout the globe, DAHER confirms its positioning, accelerates its international strategy and asserts itself as a preferred Aerospace and Defence industrial partner.

**DSEi is an international exhibition which presents the latest technological developments in ground and maritime Defence and Aerospace.*

For further information on DAHER – www.daher.com

DAHER is an equipment manufacturer that designs and produces equipment and services for very high technology industries. Specialised in global solutions that include industrial manufacturing and services, DAHER works in particular in the Aerospace, Defence, Nuclear and Automotive sectors.

Founded in 1863, DAHER is an exclusively family-run, independent international group, with 5,000 employees and 12 international installations (4 in Western Europe, 3 in Eastern Europe, 2 in North America, 2 in Africa and 1 in Australia). In 2006, DAHER hit a turnover of 450 million Euros, representing an average annual growth of 15% over the last three years, and forecasts a turnover of around 550 million Euros for 2007.
